BOROUGH OF THORNABY-ON-TEES

ANNUAL REPORT

ON THE

HEALTH AND SANITARY CIRCUMSTANCES

OF THE BOROUGH

FOR THE YEAR ENDED 31st DECEMBER, 1959

J. McGOVERN, M.B., CH.B., D.P.H. MEDICAL OFFICER OF HEALTH

BOROUGH OF THORNABY-ON-TEES

ANNUAL REPORT

ON THE

HEALTH AND SANITARY CIRCUMSTANCES

OF THE BOROUGH

FOR THE YEAR ENDED 31st DECEMBER, 1959

J. McGOVERN, M.B., CH.B., D.P.H. MEDICAL OFFICER OF HEALTH

BOROUGH OF THORNABY-ON-TEES

Mayor:

*COUNCILLOR MRS. S. J. SMITH

Deputy Mayor:

ALDERMAN JACOB CORFIELD

Aldermen:

C. Anderton, C.C. (elected 8.9.59).

*E. E. Brennan, J.P., C.C.

*H. Drinkel.

A. Nicholson.

T. Padgett.

J. N. Scott.

(resigned 14.7.59).

Councillors:

C. Allen.

F. Bage (resigned 9.12.59).

J. B. Burton.

J. W. Collinson, M.B.E., C.C.

Mrs. V. M. Harris. J. Hudson, C.C.

A. Huggins.
D. Jenkins.
*J. Kidd.

Mrs. G. E. Knox.

T. F. Mallon.

J. B. Shaw.

A. Story (elected 19.11.59).

H. Tanfield. H. J. Ward. J. White.

W. S. Wood.

Chairmen:

Health Committee ... Ald. E. E. Brennan, J.P., C.C.

Local Health Sub-Committee

for Thornaby Area Ald. E. E. Brennan, J.P., C.C.

*Members of the Local Health Committee for the Thornaby Area.

The Health Committee consists of the whole of the members of the Council.

Town Clerk ... A. Stockwell.

Borough Treasurer ... H. M. Draycott, F.I.M.T.A.

Borough Engineer ... J. L. Watson, M.I.Mun.E.,

M.R.S.H.

Public Health Staff:

Medical Officer of Health

J. McGOVERN, M.B., Ch.B., D.P.H.

Chief Public Health Inspector

H. C. SLATER, M.R.S.H., M.A.P.H.I.

Additional Public Health Inspector R. W. DOBSON, M.A.P.H.I.

To the Chairman and Members of the Health Committee.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present the Annual Report on the Health and Sanitary Circumstances of the Borough of Thornaby-on-Tees for the year ended 31st December, 1959.

The report presents disappointing features. You may recall that 1958 provided the Council with the Borough's lowest ever infantile mortality figures, unfortunately the downward trend in 1959 was not maintained and the rate rose again.

The death rate remained much as last year. Measles once again accounted for more than four fifths of the total number of notifiable diseases. Poliomyelitis was absent from the list of notifiable diseases — a tribute, I hope, to the efficacy of the preventative injections. There were again, as last year, three deaths attributed to tuberculosis.

Clearance areas involving 74 houses were confirmed during 1959. The lack of available building land is the only factor preventing the Council from clearing up all the slum property in the Borough. The Health Department has the information to proceed rapidly with recommendations when the position of availability of land becomes clarified.

The Chief Public Health Inspector has provided the details regarding the Sanitary Circumstances of the Borough. The Council is kept up to date by means of the full monthly reports provided by Mr. Slater.

This introduction to the Annual Report would not be complete without an expression of thanks from myself and the Chief Public Health Inspector to the Council for their wholehearted co-operation and help at all times. I should like to express my thanks to the Officers of the Council for their assistance and to the members of the Public Health Staff for their loyal co-operation.

I am, Ladies and Gentlemen,

Your obedient Servant,

J. McGOVERN.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area (Acres)	• • •	√ *••					1,993

The Town is situated on the southerly bank of the River Tees which forms the northern boundary of the Borough and separates it from the Borough of Stockton-on-Tees. On the easterly side it is contiguous with the County Borough of Middlesbrough, and on the southerly and westerly sides with the Rural District of Stokesley.

The surface of the ground is mainly flat, the sub-soil clay, and the industries carried on in the town are mainly connected with the iron and steel trades.

Many of the population work in the neighbouring areas of Middlesbrough, Stockton and Billingham.

DIPHTHERIA PREVENTION.

Diphtheria anti-toxin is supplied free to any Medical Practitioner in the Town who applies for it. Swabs from suspected cases are examined at the Public Health Laboratory, General Hospital, Middlesbrough.

There were no cases of diphtheria during the year.

In the course of medical inspections at schools and at the Welfare Centres parents are encouraged to have their children protected against Diphtheria either at the Clinic on Monday or Thursday or by a private medical practitioner by arrangement.

GENERAL PROVISION OF HEALTH SERVICES IN THE BOROUGH.

1. PUBLIC HEALTH OFFICERS OF THE LOCAL AUTHORITY.

At the beginning of the Report a list is given showing the Officers connected with the Health Services in the Borough.

2. SERVICES PROVIDED IN THE AREA

Laboratory Facilities. During the year the Borough Council continued the arrangements offered by the Public Health Laboratory, General Hospital, Middlesbrough, in respect of the diagnosis of pathological specimens.

3. NATIONAL HEALTH SERVICE ACT, 1946.

With certain exceptions the Thornaby Area Health Sub-Committee exercises the functions of the Local Health Authority in supervising the services provided for under this Act. The Committee meets once a month in Thornaby and is comprised of members of the County Council, the Borough of Thornaby-on-Tees and the Rural District of Stokesley. Among the services for which they are responsible to the County Council are the following:—

Domestic Helps.

Prevention of illness; care and after care.

The Ambulance Service.

Vaccination and Immunisation.

Home Nursing.

Health Visiting.

Midwifery.

Care of mothers and young children.

In this connection, a very comprehensive programme of clinical work is carried out in the Health Centre, Thornaby:—

(a) District Nurses and Midwives operating in the Borough.

Nurse	Boag	District	Nurse	and	Midwife.	Tel.	67226

- (b) Infant Welfare Clinics.

 Tuesdays and Thursdays at 2 p.m.
- (c) Ante-Natal Clinics. Fridays at 2 p.m.
- (d) Post-Natal Clinics. Every Friday at 2 p.m.
- (e) Sunlight Clinics.

 Tuesdays and Thursdays at 9 a.m.
- (f) Family Planning Clinic.
 Wednesdays (except August) at 2 p.m.
- (g) A Minor Ailments session for schoolchildren is held on Tuesdays and Fridays at 9 a.m.
- (h) The services of Orthopaedic, Ophthalmic, Dental and Aural Consultants are available (by appointment).

4. NATIONAL ASSISTANCE ACT, 1948.

Section 47. No cases dealt with during the year under the provisions of this section.

SANITARY CIRCUMSTANCES OF THE AREA.

Water.

There is an adequate piped supply to all households obtained from the Tees Valley Water Board. Co-ordination is established with the Board, whose chemists take samples regularly for chemical and bacteriological examination. All samples have been highly satisfactory and no complaints have been received during this year.

Drainage and Sewerage.

With the exception of the Vale Cottages, situated on the Borough boundary and well outside the populated area, the town has a complete water carriage system. The whole of the sewerage is discharged in a crude state into the River Tees.

Public Cleansing.

The work is under the immediate control of the Public Health Inspector and is carried out by direct labour. All refuse collected is disposed of by "Controlled Tipping" on the one site at the Erimus.

Camping Sites.

There are no camping sites in the Borough.

Municipal Swimming Baths.

The whole capacity of the Bath, amounting to 124,000 gallons, can be turned over, refiltered, sterilised, chlorinated and reoxidised in three and a half hours. The break-point system of Chlorination (or super-chlorination) is used, and all samples of bath water taken during the year for chemical and bacteriological examination were highly satisfactory.

Closet Accommodation.

With few exceptions the town has a complete water carriage system.

Schools.

The sanitary conditions of the Schools were satisfactory.

FOOD AND DRUGS ACT, 1955

For the report, as follows, on the sampling work done under the Act I am indebted to the Inspector of Weights and Measures.

I have to report that during the year ended 31st December, 1959 a total of 55 samples of foodstuffs were taken under the above Act in the Borough of Thornaby-on-Tees. All of these samples have been certified to be genuine.

A detailed list of samples taken is appended:—

Baking Powder		1	Margarine		•••	2
Bicarbonate of So	oda	1	Mixed Spices			1
Butter		1	Mincemeat			1

Refreshm	ents						3
Sweets							12
					TOTA	\L:-	226

Sixteen fried fish shops and eleven butchers shops, are registered under section 16 of the Food and Drugs Act, 1955.

Seven hundred and eighty four inspections were made of premises where food is prepared, stored or sold. Thirty four informal notices served were promptly complied with, and in no case was it found necessary to take statutory action or legal proceedings.

The food hygiene regulations were generally well observed, and the standard of cleanliness of premises and equipment was good.

Carcases and Offal inspected and condemned in whole or in part.

		•	TOTALS	S:	6	2	2	14

SHOPS ACT, 1950

Seven hundred inspections were made under the above Act, and twenty eight informal notices served were complied with by the end of the year.

DISINFESTATION

Forty-three premises were treated with insecticides for the eradication of common insect pests, with satisfactory results. Inspections were made to check re-infestation, and tenants advised on precautions to be taken.

The houses of all prospective tenants for Council houses are inspected and the house and furniture must be certified as clear from vermin before removal takes place.

RODENT CONTROL.

One trained Rodent Operative is employed part time on this work. Regular surveys were made and all complaints given prompt attention.

All sewers in the district received two treatments in accordance with the methods approved by the responsible Ministry, and routine inspections and treatments were made at other Council properties.

The following table shows the number of inspections and treatments carried out during the year:—

Type of Property			No. Inspected		lo. ated
• •			· ·	Rats	Mice
Local Authority		 	10	2	1
Dwelling Houses	•••	 	1355	109	76
Business Premises	•••	 	270	14	10
			1635	125	87
			==		=

REFUSE COLLECTION AND DISPOSAL.

Three, seven cubic yard, Karrier Refuse collection vehicles and a staff of sixteen men are engaged full time on the collection and disposal of house refuse.

Refuse is collected from approximately 7,000 premises, and a regular weekly collection service from all premises was maintained throughout the year.

All refuse is disposed of by controlled tipping on low lying land near the old river Tees, and adjoining the Middlesbrough boundary.

The cost of the service was £10,910.

SMOKE ABATEMENT.

Forty-eight smoke observations were made during the year, and six informal notices served regarding excessive smoke emission.

All industrial plants in the Borough are now capable, so far as is practicable, of being operated continuously without producing smoke.

Byelaws made under section 24 of the Clean Air Act, 1956 are in force within the Borough.

The Local Authority is a member of the Tees-side Smoke Abatement Committee, and in common with other members of the Committee carries out tests to assess the extent of atmospheric pollution. A deposit gauge and a lead peroxide instrument are sited in central positions in the town from which monthly tests are made by the Public Analyst.

The average monthly deposit of total solids for 1959, as measured by the deposit gauge, was approximately 14 tons per square mile

PETROLEUM (REGULATIONS) ACTS, 1928 to 1936.

Licences were granted to thirty firms for the keeping of Petroleum Spirit, each licence being for twelve months.

All the petroleum spirit is kept in separate stores, specially constructed of fire-proof materials throughout, and the Regulations otherwise complied with.

FACTORIES ACT, 1937. INSPECTION OF FACTORIES.
